ANTHONY SCARDINO, JR.  
Executive Director

## NJDEPE ID27/COVER SOIL REUSE REQUESTS

\*\*\*\*Revised October 22, 1992\*\*\*\*

The following tasks must be completed before the HMDC will consider acceptance of any material:

1. An analysis for all New Jersey Department of Environmental Protection and Energy (DEPE) ID27 parameters (as revised) including Toxicity Characteristic Leaching Procedure (TCLP) for metals, herbicides/pesticides, and organics on all soils. A summary page of results must be provided along with the analytical package.
2. Obtain a waste classification letter from the DEPE identifying the waste as ID27. Contact: Bureau of Hazardous Waste Regulation and Classification, 401 East State Street, CN-028, Trenton, New Jersey 08625-0028, (Telephone: #609-292-8341).
3. The following information should then be sent to: Christopher Dour, HMDC, One DeKorte Park Plaza, Lyndhurst, N. J. 07071; name, address, and telephone number of the OWNER and responsible party (if different) of the property where the soil originates; laboratory analysis; ID27 classification letter; and a copy of the application for DEPE waste classification.
4. If the information provided in (3) is acceptable, HMDC personnel will schedule an inspection of the soil. Soil is acceptable as cover material if it is free of odors, is screened to less than 3 inches, and has acceptable soil properties.
5. Assuming the above steps are completed and the material is acceptable, the HMDC will issue a letter to the applicant stating that the HMDC could utilize the soil as cover material if approved by the NJDEPE, Division of Solid Waste Management-Landfill Engineering.
6. **IF THE MATERIAL IS NOT ACCEPTED FOR SOIL REUSE PURPOSES, THE SOIL MUST BE DISPOSED OF IN ACCORDANCE WITH STATE/COUNTY WASTE FLOW REGULATIONS.**
7. If acceptable, the applicant should then contact the Bureau of Landfill Engineering, NJDEPE, 840 Bear Tavern Road, CN-414, Trenton, New Jersey 08625-0414, (Telephone #609-530-8008).

so only  
need indemnification  
letter

8. The HMDC reserves the right to reject any and all loads if the delivered material is determined to be unacceptable as landfill cover, exceeds the approved quantity and/or if cover material requirements change.
9. An average quantity in cubic yards per vehicle will be established by HMDC personnel with the initial delivery. This quantity will be set for the duration of the project until the DEPE approved limit is reached. No trailers or other oversize vehicles are permitted.
10. Origin Destination (O&D) forms (available from the hauler) must be presented at the scalehouse and provide the full address of origin, quantity in cubic yards and state that the material is clean fill. ALL VEHICLES MUST CROSS OVER THE SCALES.
11. The soil transporter must have a valid DEPE registration and decal. A maximum of 20 loads per day (subject to change) will be accepted between 7:00 A.M. and 3:00 P.M., Monday through Friday.
12. The applicant must provide an indemnification as noted below on the owners stationery.

\*\*\*\*\*

#### TO BE SUBMITTED ON PROPERTY OWNERS STATIONERY

(Name of Property Owner) warrants that the soil delivered to the Hackensack Meadowlands Development Commission includes nothing other than soil classified as ID#27 by the New Jersey Department of Environmental Protection and Energy on (Date) for property located at (full address of origin) and which has also been approved by the DEPE for use as cover material. (Name of Property Owner) agrees to indemnify the HMDC and the facility operator against any and all claims, losses, or damages caused in whole or in part by breach of this warranty. (Name of Property Owner) understands that should HMDC or GROWS personnel deem any or all of this material unacceptable as soil cover for the landfill, at any time it will be rejected. (Name of Property Owner) understands that should cover material requirements change at the HMDC facility, the HMDC will discontinue acceptance of this soil. Further, it is understood that if any of the soil is judged unacceptable or refused for any reason by the HMDC or the landfill operator, the soil shall be redirected to the appropriate county.
